Destiny Computers Bari brahmana, Jammu
3-months Certificate in IOT ***Dec* 2023 to Mar2024**
CIIIT (Tata Technologies) Bikram Chowk, Jammu
12th Class **2018-2019**
Sher-e-Kashmir (HSS) Bari brahmana, Jammu
10th Class **2016-2017**
Sher-e-Kashmir (HSS) Bari brahmana, Jammu

Experience

IT SUPPORT ENGINEER

COMPANY NAME – ALTEUS REMEDIES PVT LTD, JAMMU

DURATION – DEC 2024-PRESENT

- I Provide technical support for hardware, software, operating systems, and network-related issues across three plants under Alteus Group.
- Manage server administration, Active Directory (AD), user accounts, domain joining, and authentication in Windows environments.
- Support physical and virtual server environments, including server installation, configuration, monitoring, and maintenance.
- Successfully implemented and configured network infrastructure for 300+ users, including routers, switches, firewalls, Storage and IP addressing.
- Perform and monitor routine system backups to support data integrity, availability, and recovery.

- Install, configure, and troubleshoot Windows 10, Windows 11, and other operating systems across multiple systems.
- Manage IP cameras, network printers, DNS, DHCP, and network connectivity to ensure smooth IT operations.
- Support pharmaceutical applications and computerized systems, including SCADA, BMS, EMS, Stability, UV, IR, Empower, and ERP systems.
- Coordinate with vendors for application troubleshooting, system installation, configuration, and issue resolution.
- Prepare and maintain IT SOPs, Computer System Administration Protocols (CSAPs), asset inventories, and system maintenance documentation.
- Support Computer System Validation (CSV) activities for GxP computerized systems, including preparation and maintenance of Validation Master Plan (VMP), User Requirements Specification (URS), GxP Assessment, Validation Plan (VP), Functional Configuration Specification (FCS), Functional Risk Assessment (FRA), Test Protocols (TP), IQ/OQ/PQ protocols and reports, Risk Assessment (RA), Required Traceability Matrix (RTM), System Release Report (SRR), and other validation documentation as applicable
- Assist in the installation, configuration, and deployment of vendor-provided SCADA and other industrial systems in the production environment.
- Manage IT asset tagging, inventory records, and lifecycle tracking for hardware, software, physical servers, and virtual servers.
- Perform Windows patch management, security updates, and routine system maintenance to maintain system stability and security.
- Support GxP-related computerized systems and maintain relevant IT documentation in accordance with applicable pharmaceutical procedures

  • Support the development, testing, implementation, and maintenance of in-house applications, including requirements gathering, troubleshooting, database management, and application deployment to meet business and operational needs.

Technical Skills

Hardware: Troubleshooting hardware, maintaining computers, network camera installation.
Networking: Network setup, configuration, and maintenance, networking protocols, routers, and switches.
Programming Languages: C/C++, HTML, CSS, JavaScript, Mongo DB.
Frameworks: React, Bootstrap.
Software Proficiency: MS Word, MS Excel, MS PowerPoint.
Other Skills: IT support, software troubleshooting, IoT.

Academic Projects

Full Classroom Computer Setup | 5th Semester Minor Project

- Created a full classroom setup of computers, connecting them to the internet.
- Configured and maintained network infrastructure, including routers and switches reliable internet access for all computers.

The Tea Company website | HTML/CSS/ JAVASCRIPT/ BOOTSTRAP https://github.com/Ankr7161/the-tea-company

- Designed, developed, and implemented the official website for Tea Producer, in Jammu and Kashmir
- Used bootstrap framework to ensure responsive and visually appealing design in the development of the website.

Tourist Guide Web App | MERN STACK/TAILWIND/HTML/CSS/JAVASCRIPT https://github.com/Ankr7161/travelguide

- Developed a web application to guide tourists using the MERN stack.
- Utilized Tailwind CSS for styling, ensuring a responsive and modern design.
- Implemented features for location-based services, user reviews, and travel planning.
- Integrated various APIs to provide real-time information and enhance user experience.
